

Vosyn.ai - Live Anomaly & Bug Report

Date: 3/20/2026, 11:02:02 AM | Active Exceptions: 11

Automated executions crawled the 11 target endpoints capturing dynamic exceptions rendering locally during load phase.

[VOS-BUG-001] Uncaught JavaScript Exceptions in Console High

Route Triggered:

https://vosyn.ai/

Description: Page execution logged exceptions: Cannot read properties of null (reading 'classList')

EXPECTED RESULT	ACTUAL RESULT
The DOM elements mount flawlessly supporting navigation logic. CSS and JS dependencies load successfully without raising console exceptions.	The execution context hit an architectural fault. Properties parsed null or failed to render natively resulting in active console exceptions/errors.

Visual Evidence Capture:

[VOS-BUG-002] Uncaught JavaScript Exceptions in Console High

Route Triggered:

https://vosyn.ai/vosynverse/

Description: Page execution logged exceptions: Cannot read properties of null (reading 'classList')

EXPECTED RESULT	ACTUAL RESULT
The DOM elements mount flawlessly supporting navigation logic. CSS and JS dependencies load successfully without raising console exceptions.	The execution context hit an architectural fault. Properties parsed null or failed to render natively resulting in active console exceptions/errors.

Visual Evidence Capture:

[VOS-BUG-003] Uncaught JavaScript Exceptions in Console High

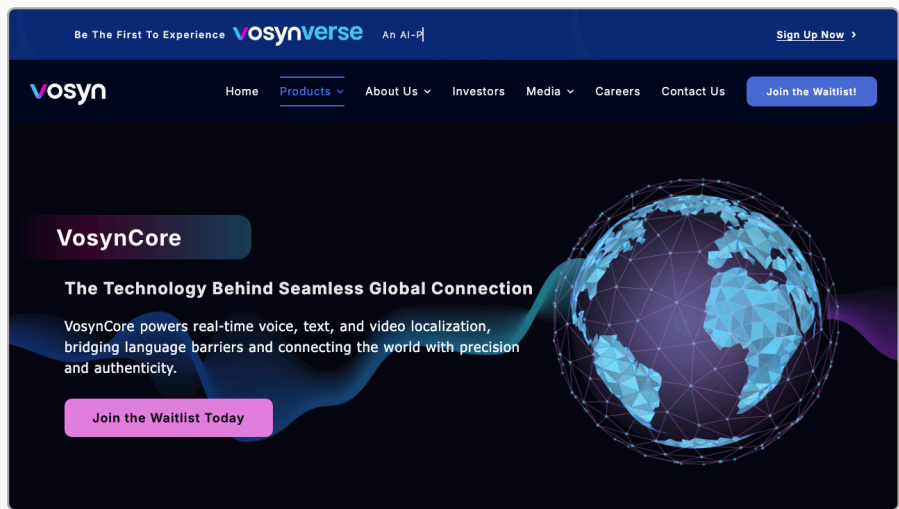

Route Triggered:

<https://vosyn.ai/vosyncore/>

Description: Page execution logged exceptions: Cannot read properties of null (reading 'classList')

EXPECTED RESULT	ACTUAL RESULT
The DOM elements mount flawlessly supporting navigation logic. CSS and JS dependencies load successfully without raising console exceptions.	The execution context hit an architectural fault. Properties parsed null or failed to render natively resulting in active console exceptions/errors.

Visual Evidence Capture:

[VOS-BUG-004] Uncaught JavaScript Exceptions in Console High

Route Triggered:

<https://vosyn.ai/vosynconnect/>

Description: Page execution logged exceptions: Cannot read properties of null (reading 'classList')

EXPECTED RESULT	ACTUAL RESULT
The DOM elements mount flawlessly supporting navigation logic. CSS and JS dependencies load successfully without raising console exceptions.	The execution context hit an architectural fault. Properties parsed null or failed to render natively resulting in active console exceptions/errors.

Visual Evidence Capture:

[VOS-BUG-005] Uncaught JavaScript Exceptions in Console High

Route Triggered:

<https://vosyn.ai/about-us/>

Description: Page execution logged exceptions: Cannot read properties of null (reading 'classList')

EXPECTED RESULT	ACTUAL RESULT
The DOM elements mount flawlessly supporting navigation logic. CSS and JS dependencies load successfully without raising console exceptions.	The execution context hit an architectural fault. Properties parsed null or failed to render natively resulting in active console exceptions/errors.

Visual Evidence Capture:

[VOS-BUG-006] Uncaught JavaScript Exceptions in Console High

Route Triggered:

```
https://vosyn.ai/investors/
```

Description: Page execution logged exceptions: Cannot read properties of null (reading 'classList')

EXPECTED RESULT	ACTUAL RESULT
The DOM elements mount flawlessly supporting navigation logic. CSS and JS dependencies load successfully without raising console exceptions.	The execution context hit an architectural fault. Properties parsed null or failed to render natively resulting in active console exceptions/errors.

Visual Evidence Capture:

[VOS-BUG-007] Uncaught JavaScript Exceptions in Console High

Route Triggered:

```
https://vosyn.ai/media-pr/
```

Description: Page execution logged exceptions: Cannot read properties of null (reading 'classList')

EXPECTED RESULT	ACTUAL RESULT
The DOM elements mount flawlessly supporting navigation logic. CSS and JS dependencies load successfully without raising console exceptions.	The execution context hit an architectural fault. Properties parsed null or failed to render natively resulting in active console exceptions/errors.

Visual Evidence Capture:

[VOS-BUG-008] Uncaught JavaScript Exceptions in Console High

Route Triggered:

<https://vosyn.ai/careers/>

Description: Page execution logged exceptions: Cannot read properties of null (reading 'classList')

EXPECTED RESULT	ACTUAL RESULT
The DOM elements mount flawlessly supporting navigation logic. CSS and JS dependencies load successfully without raising console exceptions.	The execution context hit an architectural fault. Properties parsed null or failed to render natively resulting in active console exceptions/errors.

Visual Evidence Capture:

[VOS-BUG-009] Uncaught JavaScript Exceptions in Console High

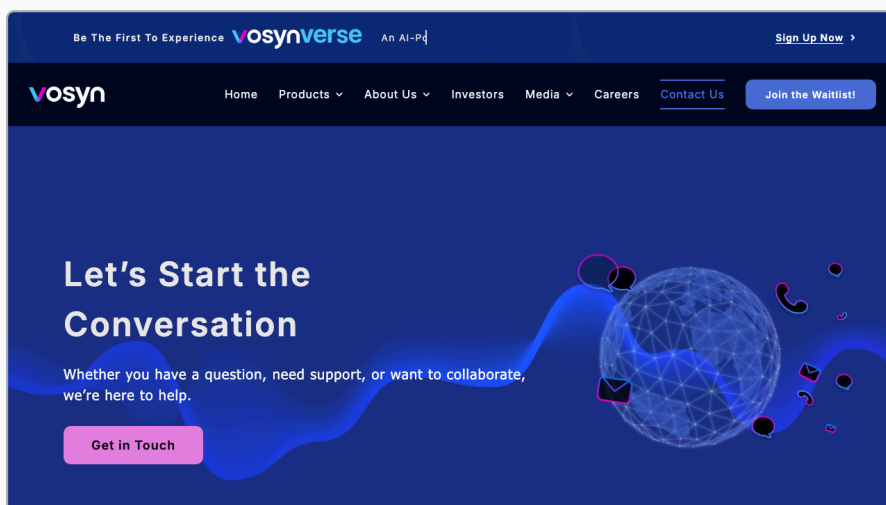

Route Triggered:

<https://vosyn.ai/contact-us/>

Description: Page execution logged exceptions: Cannot read properties of null (reading 'classList')

EXPECTED RESULT	ACTUAL RESULT
The DOM elements mount flawlessly supporting navigation logic. CSS and JS dependencies load successfully without raising console exceptions.	The execution context hit an architectural fault. Properties parsed null or failed to render natively resulting in active console exceptions/errors.

Visual Evidence Capture:

[VOS-BUG-010] Uncaught JavaScript Exceptions in Console High

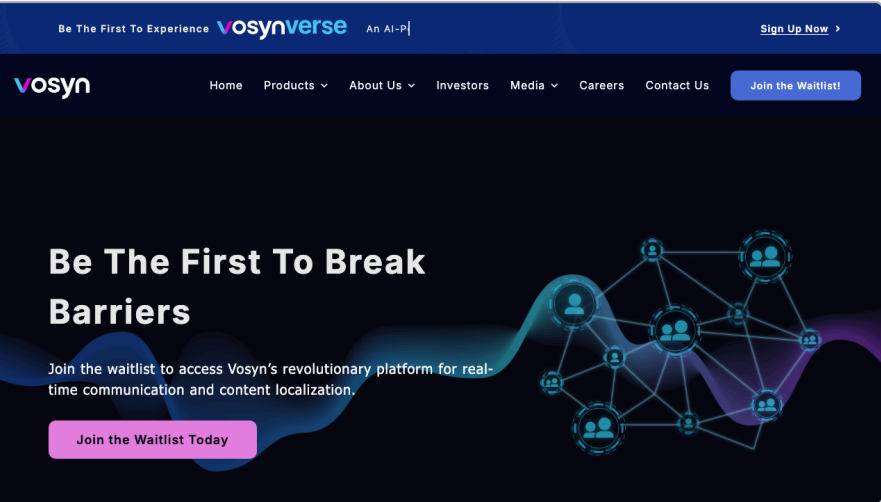

Route Triggered:

https://vosyn.ai/join-the-waitlist/

Description: Page execution logged exceptions: Cannot read properties of null (reading 'classList')

EXPECTED RESULT	ACTUAL RESULT
The DOM elements mount flawlessly supporting navigation logic. CSS and JS dependencies load successfully without raising console exceptions.	The execution context hit an architectural fault. Properties parsed null or failed to render natively resulting in active console exceptions/errors.

Visual Evidence Capture:

[VOS-BUG-011] Uncaught JavaScript Exceptions in Console High

Route Triggered:

https://vosyn.ai/join-the-waitlist/#form

Description: Page execution logged exceptions: Cannot read properties of null (reading 'classList')

EXPECTED RESULT	ACTUAL RESULT
The DOM elements mount flawlessly supporting navigation logic. CSS and JS dependencies load successfully without raising console exceptions.	The execution context hit an architectural fault. Properties parsed null or failed to render natively resulting in active console exceptions/errors.
